5 things you can do to get ready to enroll

1. Visit HealthCare.gov.

To enroll and learn more about coverage options.

2. Ask your employer if they offer health insurance.

If your employer doesn't offer health coverage, you can get coverage through the Marketplace or other sources.

3. Make a list of questions before it's time to choose your health plan.

For example, "Can I stay with my current doctor?" Or "Will this plan cover my health costs when I'm traveling?"

4. Gather basic information about your household income.

This is required for every family member needing coverage, and can include pay stubs, W-2 forms, or other wage and tax statements.

5. Set your budget.

There are different types of health plans to meet a variety of needs and budgets. You'll need to figure out how much you're able to spend on premiums each month, and how much you want to pay out-of-pocket for prescriptions and medical services.

Visit HealthCare.gov to get answers to your questions and sign up for e-mail updates about the Marketplace. You can also call the Health Insurance Marketplace Call Center at 1-800-318-2596. TTY users can call 1-855-889-4325.
