October 29, 2019

The Honorable President
Members of the Board of Trustees
Warrenville Public Library District
28W751 Stafford Place
Warrenville, Illinois 60555

Ladies and Gentlemen:

As part of our audit process we are required to have certain communications with those charged with governance at the beginning of our audit process and at the conclusion of the audit. Those communications include information related to the planned scope and timing of our audit, as well as other information required by audit standards. Our communication at the beginning of our audit process along with our questionnaire regarding consideration of fraud in a financial statement audit was sent to you in August 2019.

In addition, auditing standards require the communication of internal control related matters to those charged with governance. Our management letter, as well as a listing of future pronouncements that may affect the District, are enclosed within this document.

This information is intended solely for the use of the President, Board of Trustees and management of the Warrenville Public Library District and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Sikich LLP

Sikich LLP

October 29, 2019

Members of the Board of Trustees
Warrenville Public Library District
Warrenville, Illinois

Ladies and Gentlemen:

We have audited the financial statements of the of the governmental activities, each major fund, and the aggregate remaining fund information of Warrenville Public Library District (the District) for the year ended June 30, 2019 and the related notes to the financial statements and have issued our report thereon dated October 29, 2019. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 30, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Qualitative Aspects of Accounting Practices

Management is responsible for selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the District are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the fiscal year ending June 30, 2019. We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Management's estimate of the District's net pension liability and total other postemployment benefit liability are based on various actuarially determined amounts, including estimated investment returns, dates of employee retirement, discount rates, healthcare trend rates, and mortality rates. We evaluated key factors and assumptions used to develop management's estimates of the District's net pension liability and total other postemployment benefit liability in determining that it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole except for AJE01, AJE02, and AJE03.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 29, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on combining and individual fund financial statements and schedules, which accompany the basic financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the basic financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves.

We were not engaged to report on the introductory section and supplementary information as listed in the table of contents, which accompany the basic financial statements but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Restriction on Use

This information is intended solely for the information and use of the Board of Trustees and management of the Warrenville Public Library District and is not intended nor should it be used by anyone other than these specified parties.

We appreciate the courtesies extended to us by the District and those associated with it during our audit for this year. If you have any questions regarding the purpose of this letter or the requirement mentioned, please give me a call.

Sincerely,

Sikich LLP

MANAGEMENT LETTER

June 30, 2019

1415 West Diehl Road, Suite 400
Naperville, IL 60563
630.566.8400

SIKICH.COM

Members of the Board of Trustees
Warrenville Public Library District
Warrenville, Illinois

In planning and performing our audit of the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Warrenville Public Library District (the District) as of and for the year ended June 30, 2019, in accordance with the modified cash basis of accounting, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses, and, therefore, material weaknesses may exist that were not identified. This letter does not affect our report dated October 29, 2019, on the basic financial statements of the District.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

This report is intended solely for the information and use of the President, the Board of Trustees and management and others within the administration and is not intended to be and should not be used by anyone other than these specified parties.

Sikich LLP

Naperville, Illinois

OTHER COMMENTS

Future Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued a number of pronouncements that will impact the District in the future.

GASB Statement No. 84, *Fiduciary Activities*, will enhance consistency and comparability by (1) establishing specific criteria for identifying activities that should be reported as fiduciary activities and (2) clarifying whether and how business-type activities should report their fiduciary activities. The requirements of this statement are effective for the fiscal year ending June 30, 2020.

GASB Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for the fiscal year June 30, 2021.

GASB Statement No 89, *Accounting for Interest Costs Incurred Before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles. The requirements of this statement are effective for the fiscal year ending June 30, 2021.

OTHER COMMENTS (Continued)

Future Accounting Pronouncements (Continued)

GASB Statement No. 90, *Majority Equity Interests*, an amendment of GASB Statements No. 14 and No. 61, was issued in August 2018. The primary objectives of this Statement are to improve the consistency in the measurement and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. This Statement establishes that ownership of a majority equity interest in a legal separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit. This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. This statement is effective for the fiscal year ending June 30, 2020.

GASB Statement No. 91, *Conduit Debt Obligations*, which intends to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for the fiscal year ending June 30, 2022.

We will advise the District of any progress made by GASB in developing this and other future pronouncements that may have an impact on the financial position and changes in financial position of the District.

FIRM PROFILE

ORGANIZATION

Sikich LLP, a leading professional services firm specializing in accounting, technology, investment banking* and advisory services**, has 750+ professionals throughout the country. Founded in 1982, Sikich now ranks as one of the country's Top 30 Certified Public Accounting firms and is among the top one percent of all enterprise resource planning solution partners in the world.
